TIM SPISAK NAMED BLM AMARILLO FIELD OFFICE MANAGER

Tim Spisak has been named the Bureau of Land Management's Field Manager for the Amarillo Field Office. The newly created Amarillo Field Office was formerly known as the Bureau of Mines Helium Operations. Spisak has been with Helium Operations since 1984.

"I look forward to shaping the future of the Amarillo Field Office as we streamline operations into four main functions," said Spisak.

"Those functions, transmission and storage of crude helium, crude helium sales, tracking helium produced from federal lands, and helium resource evaluation, make up the direction of the revamped Federal Helium Program. However, the past often serves well as a guide to the future. To that end, our experience in providing quality services will continue to be a major focus in how the program will be managed and operated," he added.

Spisak coaches YMCA baseball for seven and eight-year olds in his off-duty hours.
